

ambius
grow formula

Groom | Rotate | Observe | Water

The key to unlocking the incredible benefits of healthy indoor plants, that enable healthy indoors!

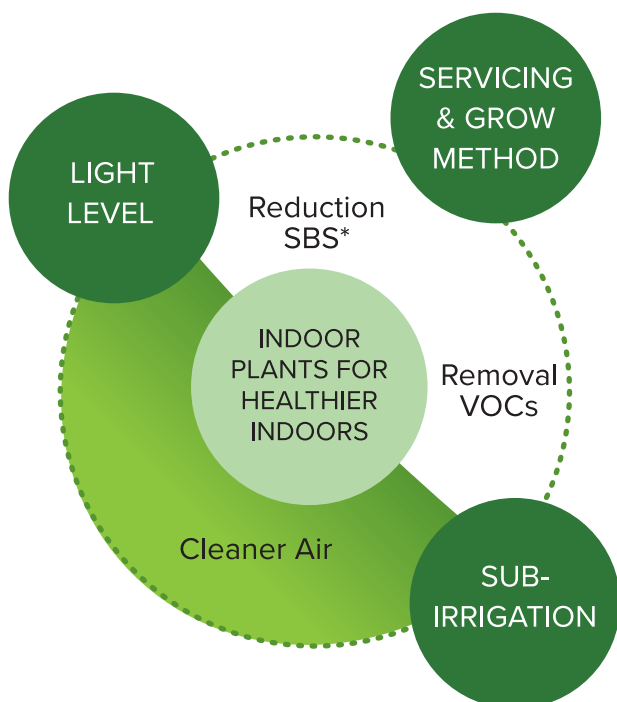

Developed by years of experience, Ambius Grow Formula is a comprehensive approach to healthy and thriving indoors.

Starts with our Interior plantscape consultants

Assessing indoors, measuring light levels and recommending the right plant for the suitable light level.

Supported by our Horticultural experts

Ensuring the correct watering and specific trained maintenance method.

The Ambius difference, the solution that has been tested and trialled and ensures your indoors continue to thrive and offer incredible benefits, in aesthetics and health and wellbeing.

DID YOU KNOW?

*UTS and Ambius research recorded 97% removal of the most toxic petrol-related compounds from the indoor air within just 8 hours

Source: *UTS 2022 The removal of petrochemical derived VOCs by the Ambius Live Picture Go

*SBS (Sick building syndrome) A term used to describe situations in which building occupants experience acute health and comfort effects, that appear to be linked to time spent in building.

DID YOU KNOW?
Photosynthesis can only take place in the presence of light

The right plant in the right light

Plants need light to convert water and carbon dioxide into carbohydrates and oxygen.

A process called **Photosynthesis** - assembly by light.

Light required between plant species differs.

Ambius plant light levels: Low, Medium and High

Low – 250-400 LUX

Medium – 400-1500 LUX

High – 1500-2000 LUX

DID YOU KNOW?

Overwatering is the biggest killer of indoor plants

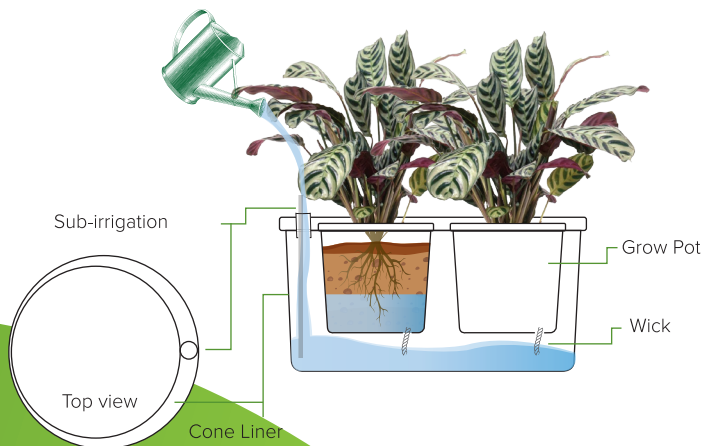

The right watering

Ambius best practice sub-irrigation delivers precise, sustainable watering perfectly tailored for our containers and bespoke/custom solutions.

Now available as a flat pack solution.

It's smarter than ever - reducing storage and transport, cost effective, while supercharging your sustainability goals. Ultra-efficient watering meets streamlined logistics.
